

Welcome

Welcome to Water Limited

Water Limited is a public education program to inform media, residents, business, and decision makers about our water supply, and what we know and don't know about managing it into the future.

Starting with a basic introduction to groundwater and branching out into many aspects of our water supply, Water Limited will explore myths and realities about watersheds, monitoring and managing of water supply, rights to access, water quality and quantity.

Though focused on the Mid-Vancouver Island region, examples of actions taken elsewhere in Canada and the world will be provided for information and inspiration. Content in this media kit will be pertinent to other areas of the province.

This package is just a beginning. Inside you will find stories, factoids, quotes and questions that you can use for publication. Over time, we expect to send you updates including more short stories that you can print or edit.

If you ever have any questions or comments about the content of this kit, please do not hesitate to contact Michele at 250-738-0232, or Faye at 250-752-9297, or reach us by email at auklet@shaw.ca.

Michele Deakin & Faye Smith
Project Coordinators

Project funded by the Georgia Basin Vancouver Island Living Rivers Fund, and the Mid-Vancouver Island Habitat Enhancement Society.
